HEROES OF STALINGRAD — BATTLEFIELD STORIES #1

ALL QUIET ON THE EASTERN FRONT

Front: Stalingrad
Army: USSR/German
Date: 1942-1943

This expansion allows you to play in two new environments, a fiercely contested Kolkhoz on the outskirts of Stalingrad, as well as the docks on the west bank of the Volga. With this, you can relive the dangerous crossing of the river by the soldiers of the Red Army.

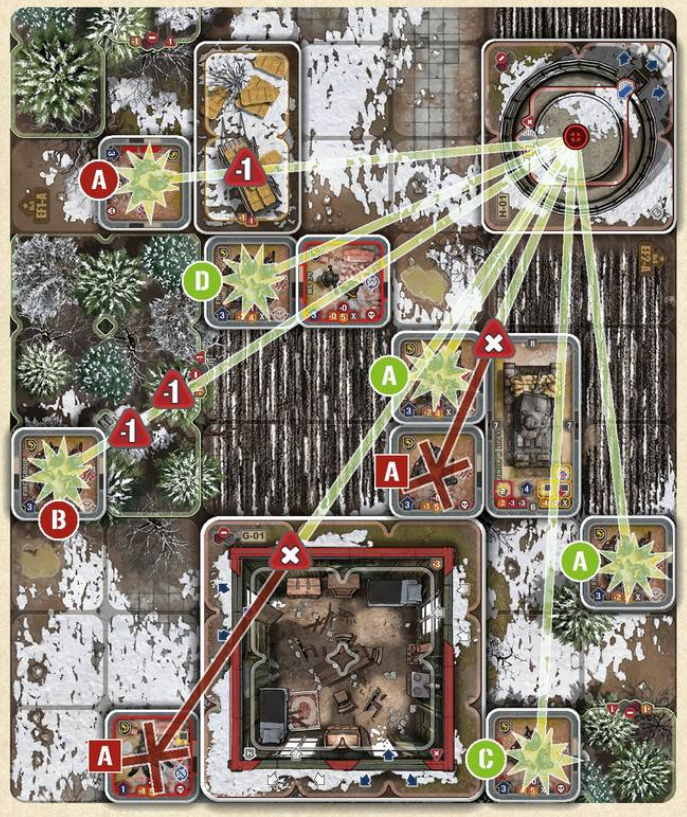

BATTLEFIELD

1 - TERRAIN EFFECT

ELEVATED POSITIONS

Due to the steep down-angle, a Unit in an **Elevated Position** may not fire at Units outside an **Elevated Position** (on the ground) if their LoS crosses any other square of the **Elevated Position** in which it resides.

The Unit in an **Elevated Position** will be less hindered by Obstacles that **block** or **reduce** LoS. So when its LoS crosses a Terrain Element or vehicle, the effects of that element only apply to a unit in the square directly after the Obstacle A A. However, if the LoS crosses more than one square of an Obstacle, all modifiers are applied B. Any squares farther beyond the Obstacle are not affected C. Infantry Units never block the LoS of a Unit in an **Elevated Position** D.

If a Unit in an **Elevated Position** can target an opposing Unit, then that opposing Unit can target them back. Any of the Obstacle restrictions apply in both directions A, B, unless that Obstacle effect is limited by **Adjacency**, such as a Line.

When a Unit in an **Elevated Position** is taking a Firing Action at another **Elevated Position**, then only other elements with the **Elevated Position** effect, or Units in an **Elevated Position** can potentially block that LoS. Nothing at ground level can interfere.

2 - TERRAIN ELEMENTS

HAZARDOUS WATER

Impassable to Light & Heavy Vehicles - Difficult Passage

Too much water to drive a vehicle. And too many obstacles to float a boat.

DEEP WATER

Water

If the Volga had been a river of vodka, no Russian soldiers would ever have drowned in it..., in theory.

RULE CHANGES

SECONDARY OBJECTIVES

Secondary Objectives are **CONTROLLED** like **Primary Objectives**, although they do not have a "**CONTROLLED**" side and are therefore not flipped. However, in some scenarios, they may be **CAPTURED** when controlled. **CAPTURED** Objectives are removed from the board and placed next to the player's Recruitment Tiles.

SPECIAL ABILITIES

SPECIAL MOVEMENT ABILITY

AMPHIBIOUS

A unit with this **Special Ability** can enter Water squares. If the **Amphibious** symbol is surrounded by a **red border**, the unit is exclusively aquatic. This means that the unit can only move in **Water** squares.

Required product: ***Heroes of Stalingrad Core Box***
