SPECIAL SCENARIO RULES

THE VOLGA FLOTILLA!

- **Soviet Boats** may leave the board in any Phase (**Order Phase** or **Supply Phase**) and then return to play, through the squares marked with arrows, in the next **Phase** (**Supply Phase** or **Order Phase**). They may pick up any undeployed **Infantry Units** before returning to play.
- When a **Boat** is to be **Destroyed**, the **German player** draws a **Broken** marker and applies the result. If the Boat already had a **Broken** marker, it is **Destroyed**. Once the Boat is **Destroyed**, retrieve the **Broken** markers and shuffle them back with the others. Boats retain their **Broken** markers when leaving the board.
- **(x5)** : the **Boat** is **Destroyed**.
- **(x3)** : the **Movement Value** of the **Boat** is reduced to 1.
- **(x4)** : If the **Boat** has **Infantry Units** aboard, one of them takes a **Hit**. Otherwise, nothing happens.
- **Destroyed Boats** may return to play in the next phase with or without having embarked **Infantry Units**.
- **Soviet Infantry Units Destroyed** in a water square due to the **Destruction** of the **Boat** in which they were embarked, or **Destroyed** on a **Boat** due to the **Broken marker**, are placed beside the map and may be redeployed at full strength.
- **Soviet Infantry Units Destroyed** under other circumstances are permanently **Destroyed**.
- An **Infantry Unit** may, as part of its **Movement Action**, move from one **Boat** to another.

A GUN FOR TWO!*

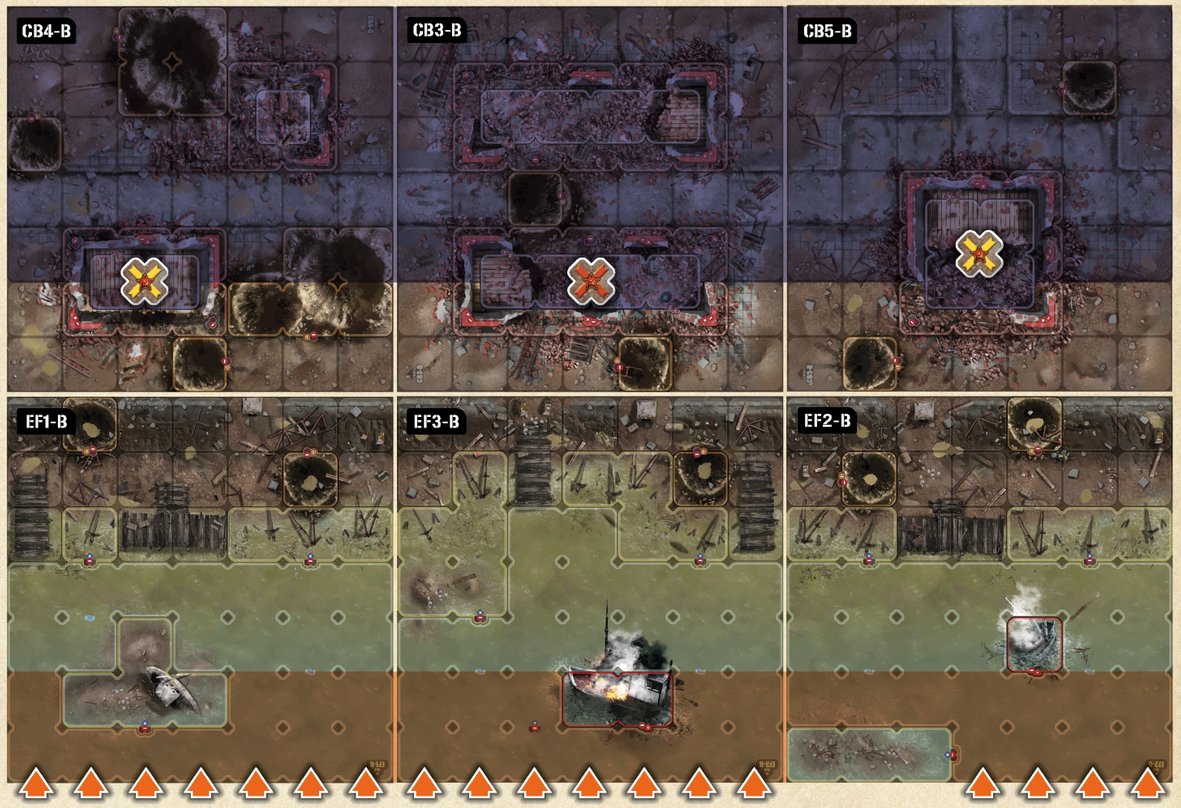

- **Soviet Infantry Units** may not take a **Firing Action** unless they have a **Rifle marker** on their counter. This rule does not apply to **Alternate Firing Actions** or to **Characters**.
- When an **Infantry Unit** is **Destroyed**, leave the **Rifle marker** in its square. If it is a water square , assign it to an undeployed **Infantry Unit** or set it aside
- A **Soviet Infantry Unit** can pick up a **Rifle marker** by passing or stopping on it.

"**Possible Firing Action**" side (when placed on an **Infantry Unit**)
