AMBUSH.

FANMADE SCENARIO

The Captain ordered us to follow him, walk into this village and secure it. Piece of cake…
Did I see someone move behind that window?
Was somebody hiding behind those curtains?
I had a hunch there could be something wrong with this village, it was just.. too quiet?
Until we heard a buzzing noise. Some contraption on tracks raced out of a shed.
Before we realised what it was, it had rolled underneath the Captains jeep and blew it sky high. Everybody scrambled for cover. This place was crawling with Germans!
I knew something was wrong!!!...

Set up :

The **US player** deploys first.
All units, plus one already destroyed jeep, are placed in the red zone.
There must be at least two empty squares in between each unit.
The **German player** deploys in the buildings.
Check if the infantry can be positioned in the numbered buildings.
Roll **two dice** for **each unit** and assign position in the **building** with the **corresponding** number.
When a building has **no more room**, place the unit in **any** other building that has **free space**.
