Hill 192.

FANMADE SCENARIO

Saint-Lô, Dawn, July 11 th, 1944...
The battle commences. The mission is quite clear : take and hold the principal high ground of the region, to the East of Cloville, Hill 192. A recon unit will scout out the place and, from a vantage point in a building, guide in the following assault troops. Infantry supported by armoured units will move onto the hill and brush aside any resistance encountered there. Once artillery can be posted on the hill, it would prove a great advantage for the Allies in their attack on Saint-Lô.
The Germans realise this all too well...

Particular Information :

After deploying, the recon groups must rush to their objective. Only after they reached this, their side's assault group may enter the game in the next turn. Assault units can enter either with an order in the activation phase or without order in the supply phase. They move from the edge of the board through their assault zone and/or their side's Recon deployment zone.
Try to score at least ten points more than your adversary or the game is declared a draw.
No points are gained by capturing objectives.
The game lasts for 10 turns.
