INVASION BEGINS!

SPECIAL DDAY 70TH ANNIVERSARY

6 JUIN 1944, 4H15

Somewhere on a landing craft in the middle of the Channel, rough sea, fresh wind.

At ease, ladies!
Kowalski, just go ahead and puke, you're lookin' green.

The rest of you, hold on to your lunches and listen up! In an hour, this floating iron piece of crap will be swimming distance from the promised land. You been goin' through Hell for months, waiting for this day! Well, here we are! That smoke bank over there is France! I won't lie to you, when I say Promised Land, it's a figure of speech, and since I ain't what Kowalski would call an intellectual, I won't sugar coat it. Most of you kids down in this hold crapping your pants won't ever see Paris on anything but a fucking postcard, since you'll be killed as soon as you hit the beach.

Don't fool yourself with the sweet stories told by HQ about the free world and all! The truth is that the guys on the other side aren't gonna be holding the door for you. They're nasty, they have their back to the wall, they're following Der Fuhrer, and they still believe his bullshit about a Thousand-year Reich. They're playing ball on their home field, and

they've been here for 4 years, waiting for us. Hell, some of their fathers fought your fathers on the same damn land in the last war!
Some of you fought them in Africa, in Sicily, in Italy; you're the ones that know what I'm talking about. For the rest of you, make no mistake, sweetie-pies, I'm not trying to scare the shit out of you, I'm only trying to get this into your thick fucking skulls: even if the enemy deserves to die, he's still a battle-hardened soldier, seasoned by 5 years of uninterrupted war. He's tough, he's smart, and he can't be fooled. Just because we're the good guys doesn't mean we can't lose, so don't be stupid.
Make me proud! You're here to kill the enemy, so fucking kill the enemy! Blow them to Hell, and piss on their corpses!
It's D- day…NOW!
Permission to puke granted.

ANCHORS AWEIGH

I was told. I didn't listen. Now I'm standing on this fucking barge and the coast of Normandie is getting closer far too quickly for my taste. Me, the guy who gets sea-sick. Me, the one that can't fucking swim. It's impossible to disembark in these conditions. What are we gonna look like with our crumpled, soaking-wet uniforms? Shipwrecked dirty faces ain't gunna score with the ladies in the bars of Caen. We might as well admit we'll have to sleep in those damn racks again, and that there's gonna be some frantic wanking in the berthing. Me, the guy that can't swim….

HEINRICH VON KAMPTZ

Sought for war crimes, crimes against humanity (and numerous other crimes too many to list)

Hauptstürmfuhrer Von Kampftz, aka **The Aryan Plague**, is being sought by Allied Military Justice to answer for the following counts of indictment: massacre of prisoners of war, plundering, torture, dubious medical experimentation, taking civilian hostages, massacre of civilian hostages, cruelty to animals, unspeakable and unnatural perversions, aggravated Nazism and having a face like a pig's bottom. All Allied soldiers should do everything in their power to capture this individual, alive if possible, dead is fine as well.
Beware, this individual is extremely dangerous and generally protected by a horde of fanatic infantrymen and armored vehicles! Do not try to apprehend him by yourself! If you locate **Hauptstürmfuhrer Von Kampftz**, report immediately to High Command for top priority on artillery missions, air support, and all available reinforcements.
Good luck.
