THE CONVOY OF DOOM

FROM OUR SPECIAL CORRESPONDENT IN FRANCE — **SCENARIO #2 BRIEFING**

The convoy speeds up to the Siegfried line. The Terranyte will soon enter the Reich. Nazis scientists are waiting for it with eagerness to create new secret weapons that will change the course of the war. But, fortunately for the free world, Captain Justice and Lady Britain are setting an ambush to the Alpha section. The titans are ready to battle!

1-BATTLEFIELD AND DEPLOYMENT

2- ARMY RECRUITMENT

CAMPAIGN : If the German player lost the previous scenario, he starts the game with only one truck. The Terranyte is in it.

3- PREPARATION

Remove the following cards from the US deck: Precision, RAM, It bounces right of it, Réparation, Weak point, Hit and Run, Don't stop and every **Artillery** and **Aviation** cards.

Remove the following cards from the German deck: Precision, RAM, Weak point, Repairs, Booby trap and every **Artillery** and **Aviation** cards.

The German player places one crate in each truck, face down. Each crate worths 4 transport points.

The American player makes **4** piles with his units and place them near the battlefield. He places a damage token on each of them, side **6** up. The number on the other side corresponds to a deployment zone.

When activating a unit from one of his piles, the player must deploy all of the units of this pile in the deployment zone corresponding to the damage token number (1, 2, 3-4 or 5).

When a German unit enters a US deployment zone, all the units from the pile with the corresponding damage token must be deploy in the zone.

The German convoy enters the battlefield by one of the two spaces marked with a grey arrow, during the Activation phase with an Order or the Supply phase without an Order.

The German player has initiative Place the corresponding marker on space **1** of the turn counter.

Each player draws **4** cards.

4- GAMEPLAY

This game lasts **8** turns.

The fight starts at clear night.

Clear night
The maximum range for firing is **9** spaces. Beyond this distance, it's impossible to fire.

The long-distance penalty starts at **7** spaces.

The maximum range of **9** spaces is also applied to the Limited Range Special Ability, if it's above **9** spaces.

To notice a unit hidden in a tile overlay, you must be adjacent to it. A unit can hide in open terrain (outside of a terrain overlay), if no enemy is present within **4** spaces or less with an clear LoS on the hidden unit.

The dispersal of indirect firing is increased by **1** space.
The range of indirect firing is not modified.

It's impossible to play Aviation cards.

The goal for the German player is to get the truck transporting the Terranyte out of the battlefield by the space marked with the red arrow.

The goal for the American player is to find the Terranyte. He must destroy the trucks in order to be able to open the crates and find out what they contain.

When a truck is destroyed, the crate is placed on a space adjacent to the truck wreck.

To pick up a crate a unit (anyone except Oberleutnant Hauser, Clint and captain Marvin) must stop on the crate token. The unit carrying the crate can move normally.

A unit situated in a space adjacent to a crate can open it instead of performing a shoot or move action, during the Activation phase or the Supply phase.
The presence of enemy units adjacent to the crate prevents this action.

The game ends when the Terranyte leaves the battlefiend or when the American player opens the crate containing the Terranyte.

5- VICTORY CONDITIONS

German victory: The German player wins the game if the Terranyte is out of the battlefield before the end of turn **8**.

American victory : The American player wins the game if he finds the Terranyte before the end of turn **8**.

All other result is a draw.
