HEROES OF NORMANDIE

WAR STORIES

JUNO BEACH

Front: Normandy
Armies: CW/German
Date: June 6 1944
Player: 1-2

Only one **Vehicle** may exit the **Heavy Transport** per game Phase. This means that during the same turn **1 Vehicle** may exit in the Activation Phase and another in the Supply Phase.

If the **Heavy Transport** is destroyed, so are all the **Vehicles** being transported.

BEACH BOYS

The Americans went through hell at Bloody Omaha, but the Canadians also had their beach bathed in blood and fury. Shortly after the offensive began, the infantry was pinned down on the beach under enemy fire.

Heavy support was urgently needed, but the sappers could not open enough gaps in the submerged defenses to land the tanks. The Landing Craft Tanks braved the danger anyway and dropped the tanks on the beach, risking grounding or hitting a mine. The arrival of these tanks changed the course of the battle, and very quickly the situation became unblocked.

RULES

SPECIAL ABILITIES

MINESWEEPER

The unit that has this **Special Ability** may move freely into a square containing, or adjacent to, one or more **Mine tokens** without rolling the die. Do not reveal any **Mine tokens**. If the **Unit** moves through more than one **mined square**, it may not use this **Special Ability**.

HEAVY TRANSPORT

This unit can carry Light or Heavy Vehicles or **Light Vehicles** but not Infantry Units. Use the following scale to determine how many Units may be carried:

- One-space **Vehicles** and **Guns** count as 1.
- Two-spaces **Vehicles** count as **2**.

RECRUITMENT OPTIONS

ENGINEER GEAR

Restricted to Infantry

This option gives you **5 markers of your choice**. At the beginning of the game, select any combination of **5 gear markers** with the same **colored stripes** as the Gear Recruitment Option. **Gamon Grenade, Hawkins Mine, Knife, Piat.**

GAMMON GRENADE

Restricted to Infantry - Alternate Firing Action

This option gives you **3 Gammon Grenade markers**. You can choose the power of your **Gammon Grenade** when you use it. **Choose one of the marker's side.** One side of the **Gammon Grenade** targets an Interspace. The other side targets a single square. Combat Values differ from one side to the other.

HAWKINS MINE

Restricted to Infantry

This option gives you **3 Hawkins Mines markers**. the maximum range is . This gear may damage or destroy **Structures** and create **Breaches**.

PRECISION: At any time during its Movement Action, in either the Activation Phase or the Supply Phase, a unit may place a single marker on a single target in its ZoC. You can place multiple markers by using multiple units or by having the same unit act twice. The target can be a **Structure** or a **Unit** except for Infantry Units. If the target moves, it takes the marker with it.

The **Explosion** occurs **at the end** of the Supply Phase and does not use an **Explosion** Template. If more than one marker, of the same type or not, is placed on the same target, add their Combat Values or Destruction Values and roll once. Use the Side Defense Value if it is a Heavy Vehicle. Then discard the marker(s).

MECHANICS

Restricted to Heavy Vehicles

Discard the **Mechanics marker** to fix (discard) a Damage marker on a Heavy Vehicle, then place a Suppressed marker on it.

DEVIL PIG GAMES

WWW.DEVIL-PIG-GAMES.COM

SET UP

- The **Canadian Player** has the Initiative.
- Place **1 CW Primary Objective**.
- Placez **2 CW Secondary Objectives**.
- Placez **2 Tactical Bonuses**.
- Each player draws **4 Action Cards**.
- The game last 4 to 8 **Turns**.
- The **German Player** deploys first the **Units** of its tiles marked with a 1 or a 2 in their respective deployment zone (1 and 2).
- **German Units** in the deployment zone 1 may not leave this zone until turn 4.
- The **Canadian Player** deploys the **Units** of his choice in his deployment zones and in his Landing Crafts.

The tokens representing ***Miles Dempsey*** and ***Dietrich Kraiss*** do not participate in this battle.

VICTORY CONDITIONS

The goal of the Canadian P. is to capture the Primary Objective.

Each time the **Canadian Player** controls a Secondary Objective, move the and place a **Tactical Bonus** on the space indicated by the corresponding white and yellow arrow.

At the beginning of the Supply Phase of turn 2, the **Canadian Player** places the **Landing Craft Tank** as indicated in the set-up. The **LCT** is now part of his **deployment zone**.

Beginning with the Order Phase of turn 5, the **German player's Units** in the deployment area 1 may exit.

During the Supply Phase of **turn** 7, the **German player** may deploy the **Flak 38** in the deployment area 1 providing he has no more **Anti Aircraft Units**.

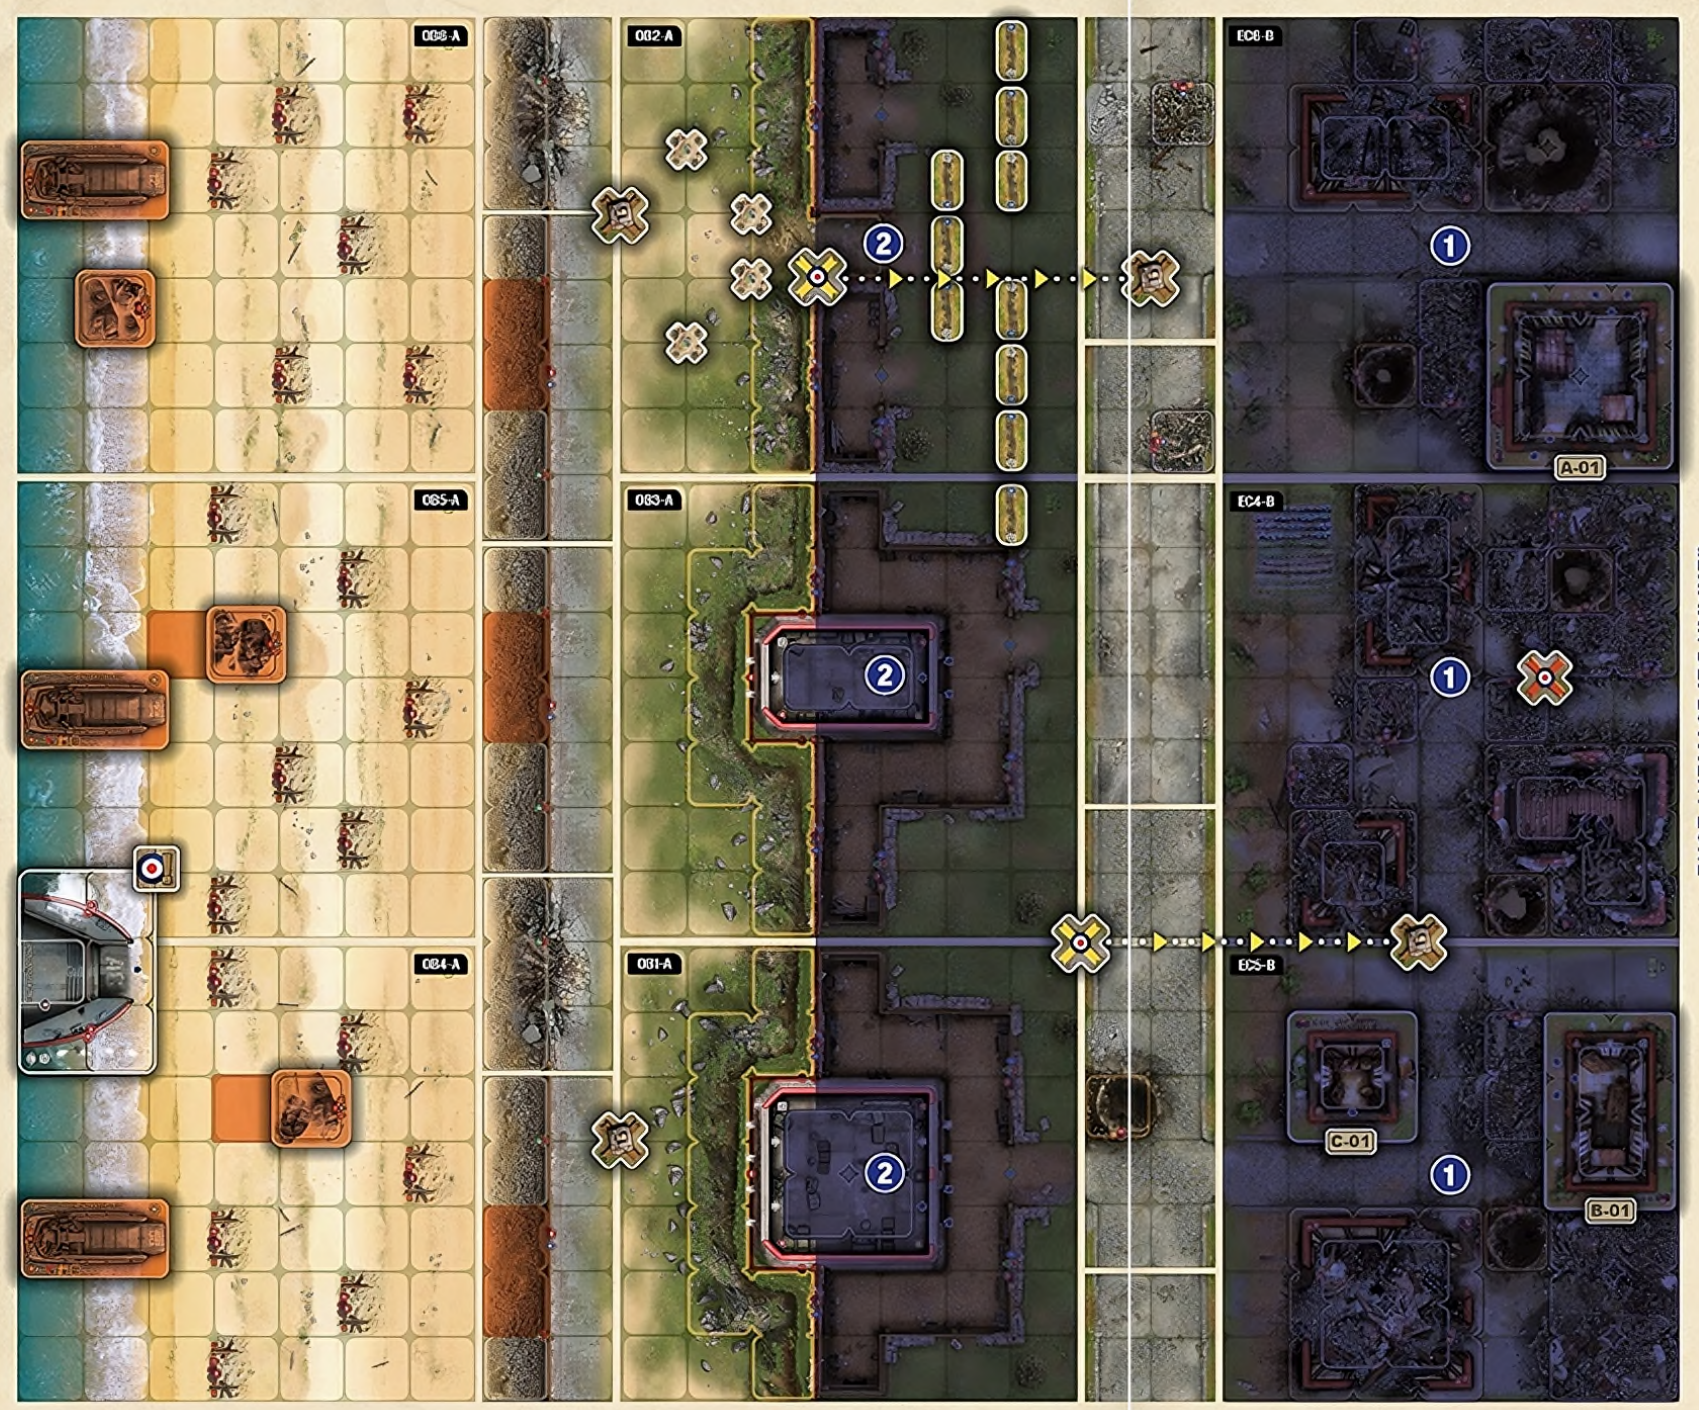

The game ends at the end of the turn indicated by the marker or at the end of any Supply Phase if the **Canadian Player** controls the **Main Objective**.

- **CANADIAN VICTORY:** At the end of the game the **Canadian Player** controls his Main Objective.
- **GERMAN VICTOIRE:** At the end of the game the **Canadian Player** does not control his Main Objective.
