OFFICIAL WEB SCENARIO

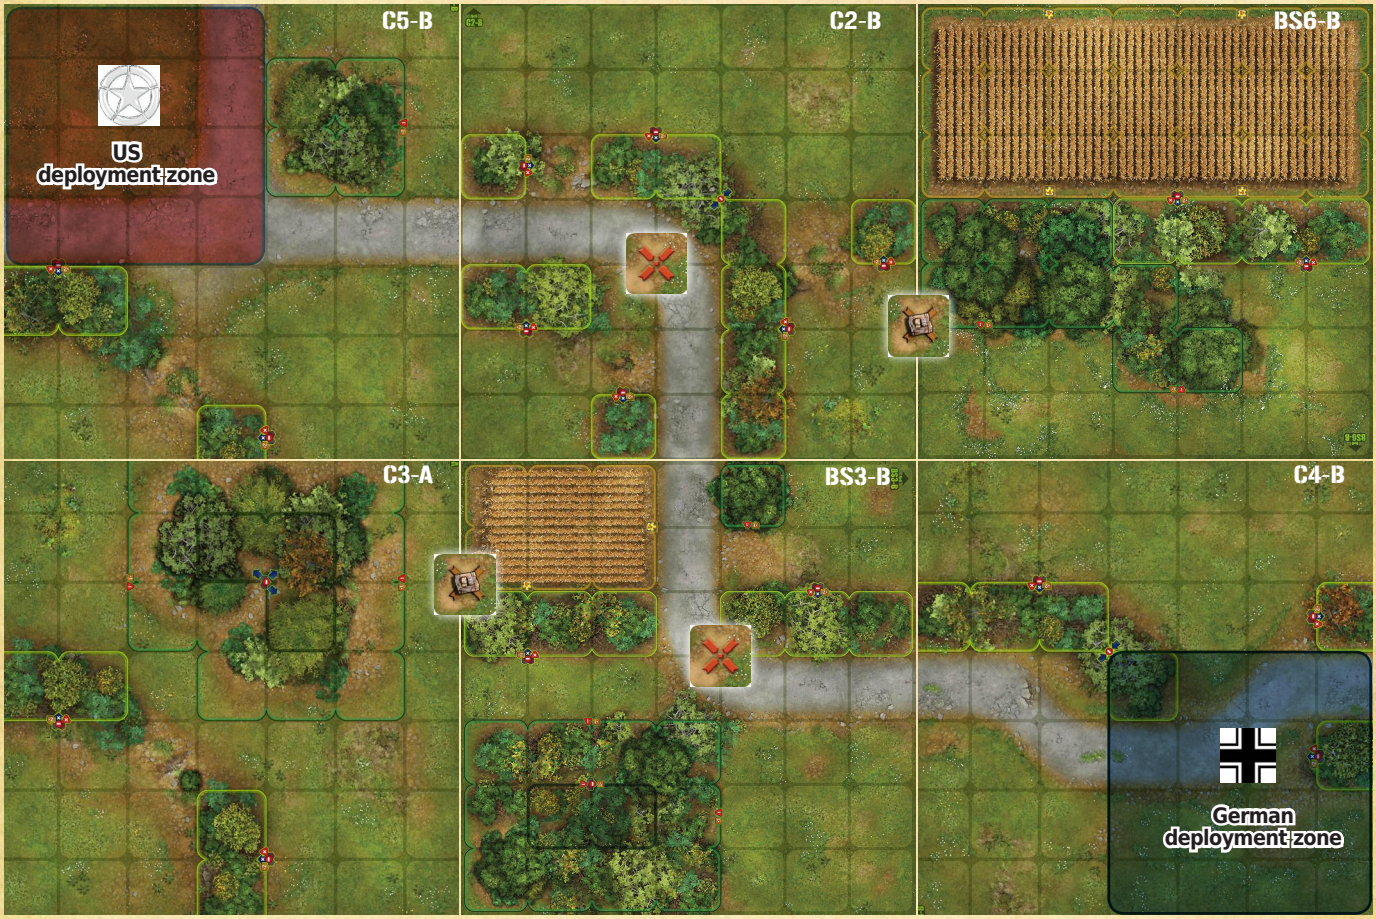

HELL ON WHEELS!!!

Haid, Belgium, December 23, 1944 :

Two days before Christmas, the 2nd Panzerdivision is spearheading the German offensive in the Ardennes. In spite of having suffered significant losses, it remains the most powerful armored unit of the V Panzer Armee. With their vehicles almost running on fumes, they need to push on only 6 more km to reach the bridges across the river Meuse. The 2nd US Armored Division was transferred back to the 1st US Army on December 21. Their mission is to smash the vanguard of the 2nd Panzerdivision and stop the Germans in their tracks.

Battleground set #1, US Army Box, US Platoon punchboard and the GE 21EME Panzer expansion are required to play this scenario.

1- BATTLEFIELD AND DEPLOYMENT

2- COMPOSITION OF THE ARMIES

3- PREPARATION

Draw and place, **2** bonus tactics face down.

Remove from both decks :
Surprise, **Precision** and **Repairs** as well as all **Artillery** and **Aviation** cards.

Determine the starting player and position the corresponding initiative marker on turn **1**.
The player with initiative deploys first in the appropriate deployment zone.

The special ability "**Scout**" cannot be used in this scenario.
All infantry units must be deployed on board of the vehicles.

Each player draws **4** cards.

4- PARTICULAR INFORMATION

This game is played in **6** turns.

As stated in the introduction, the historical events on which this scenario is based are set in the Ardennes during winter when fields tend to be barren. Hence, players may mutually agree to ignore any effects of Wheatfields.

To provide a correct visual representation, terrain pieces, depicting ploughed fields, can be found in the download section of the DPG website. These can be printed and placed over the wheatfields.
For now, at the publication date of this scenario, only one single field of 3x3 squares is available, but more fields will be added.

To win, either player must control both objectives simultaneously at the end of a turn, before the end of turn **6**, or eliminate more enemy units than the opponent whilst denying the adversary control over both objectives.

5- VICTORY CONDITIONS

Instant Victory : If either player controls **both** objectives at the end of a turn, their side immediately wins the game.

Regular Victory : If neither player obtained an **Instant Victory**, the player who has the most VP after the end of turn **6** wins the game.

EDITOR'S NOTE

The initial goal of this scenario is to aid new **Heroes of Normandie** players in understanding the advantages of light vehicles and provide experience whilst discovering the correct use of these often delicate units.
Of course, seasoned players are welcome to give this one a try as well.

EPILOGUE

Succeeding in a most impressive speedy redeployment, the 2nd US Armored is already at the disposition of VII US Corps in the evening of December 23. Whilst reconnoitering, a patrol of the 82nd Reconnaissance Battalion stumbles upon troops of KG Von Cochenhausen. Combat is brief. The Americans lose an armored car and clear out in their remaining vehicle. The two armored divisions are about to clash!
