SCENARIO 1 - BRIEFING

# AN EXPLOSIVE PICNIC

Somewhere in the East of Normandy, in July '44, Captain Maude walks his dog, Winnie, while his troops take a break. His men are eating the picnic they just recovered from an airdrop, leaving behind some extras, including some smoke grenades. One of the scouts left for the amenities, but suddenly runs back screaming that a division of Tigers, commanded by the dreaded Wittmann, is coming down the road. The Captain exclaims "It's time for our dessert!"

## 1- BATTLEFIELD AND DEPLOYMENT

## 2- COMPOSITION OF THE ARMIES

## 3- SETUP

Without looking, randomly select **3** Bonus Tactics markers and place them on the Battlefield.

Remove the following cards from english deck:
Don't stop, It bounced right off it, Hit and run, Ram, Repairs and all the **Artillery** and **Airstrike** cards.

Remove all the **Artillery** and **Airstrike** cards from the german deck.

The English player deploys his units in his deployment zone.

**The German player deploys his tanks along the road in his deployment zone, his infantry units alongside his tanks. He must follow the road all along the game, the famous german rigour!**

The English player has the initiative.
Thus he deploys first.
Place the corresponding marker on space **1** of the turn counter.

Each player draws **4** cards.

## 4- PLAYING THE GAME

This game lasts **6 turns**.

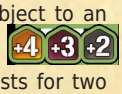

The german player has to get out as much as possible tanks by the primary objective space.

If the German player captures the German secondary objective, then the German forces have captured the English radio and can take an Artillery card of his choice which will be used during the next turn.
The English player wins if no tank comes out of the ambush.

**Ditches on each side:**
When a German tank is destroyed, the German player flips it as normal, but places it either to the left or right side of the road at the point where it was destroyed so as not to hinder the progress of the rest of the convoy. To repair a tank with damaged tracks (damage marker "**2**"), you assign an Order token, but the tank must spend the turn repairing the track and may not move or shoot.

The English player begins the game with **4** Smoke grenades.

**Smoke:** An English infantry unit can, instead of making a shot, consume 1 smoke grenade to place a Smoke template on an interspace at a maximum distance of 1 space away. At the end of the Activation phase, each space covered by this Smoke template is subject to an attack by an Aircraft. Every unit under this Smoke template is attacked by an aircraft.

Heavy vehicles use the side defense value. The Smoke lasts for two turns.

The English player can recover extra gear dropped by aircraft by capturing the English Secondary objective. If he does this, he earns an additional 5 Smoke Grenades.

## 5- END OF GAME AND VICTORY

The game ends when the German player moves his last tank off the English end of the road, the last German tank is destroyed, or the end of turn 6 is reached. At this time, we count the victory points. If the tanks were destroyed before the turn 4, then it is a total victory for English player.

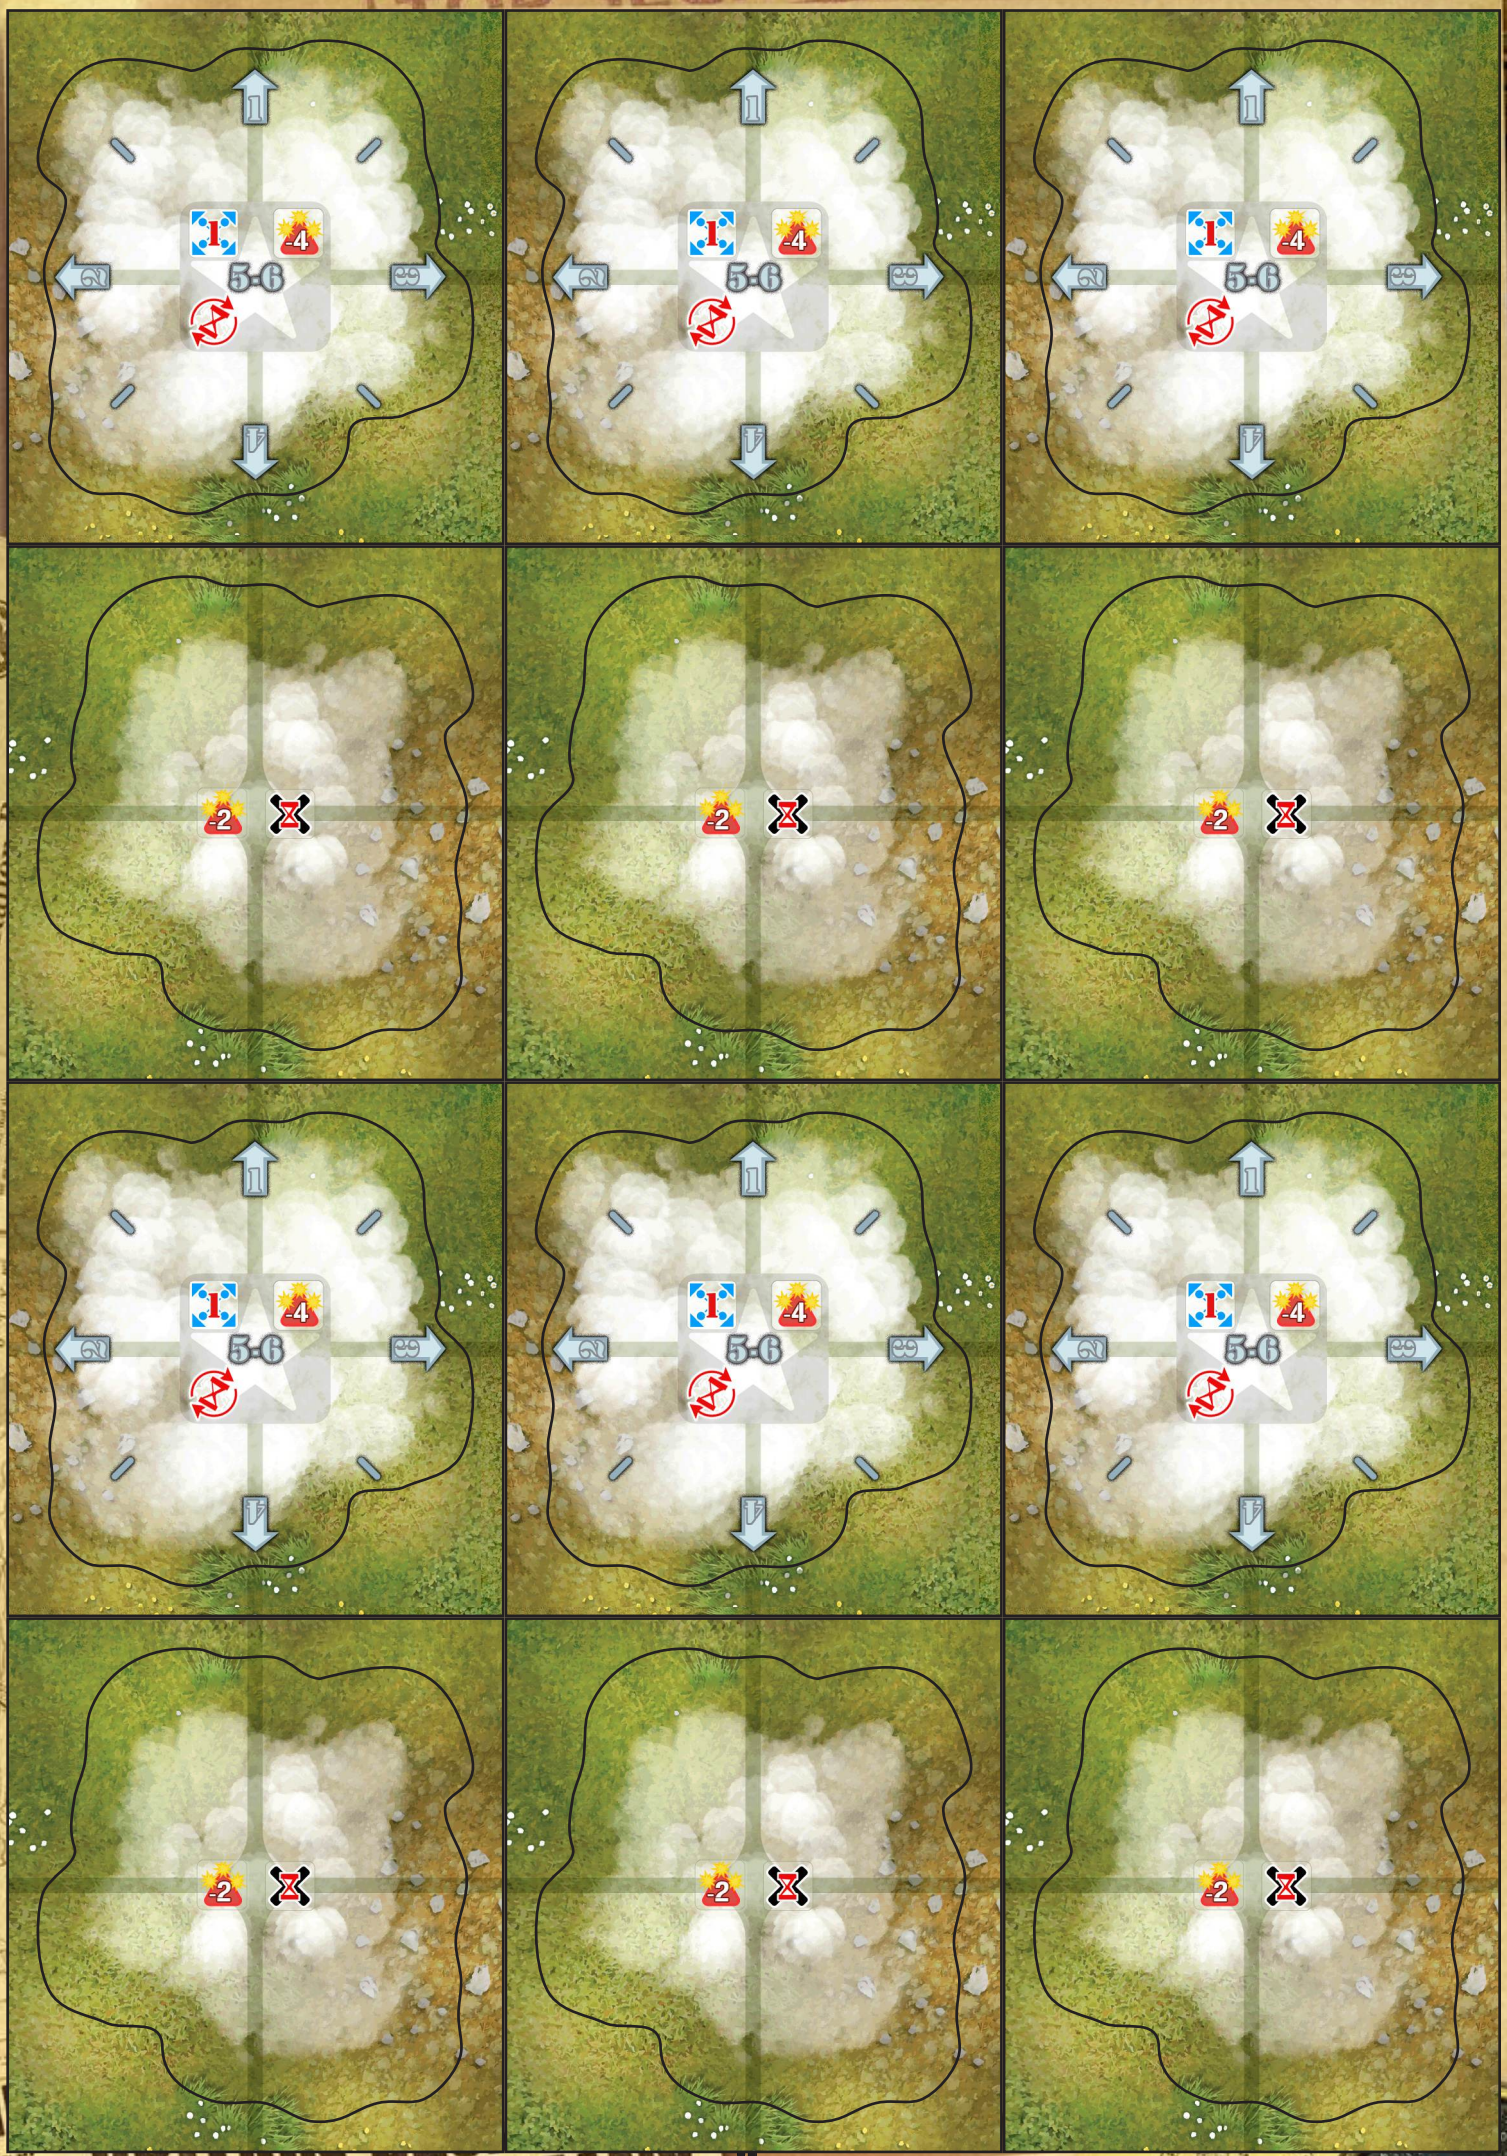

**English Victory:** The English player wins the game if no tanks move off the English end of the road.

**German Victory :** The German player wins a number of victory points equal to the front defense of each tank that moved out.

**0-15 :** minor victory
**15-30 :** major victory
**30+:** total victory
